LOCUS TECHNOLOGIES AND CKM CONSULTANTS PTE LTD WIN ENVIRONMENTAL PROJECT IN SINGAPORE

WALNUT CREEK, Calif., December 15, 1999/Business Wire/ — Locus Technologies (Locus) today announced that the company and CKM Consultants PTE LTD (CKM) of Singapore have been appointed consultants to the Singapore Ministry of Environment for sewerage and drainage services, based on their tender in which Locus Technologies had been included as CKM's Associate Consultant. The appointment is for a contract of 5 years, and CKM may be called upon to provide services at any time during this period for any of the Singapore Ministry of Environment's projects ranging between S\$1,000,000 to S\$20,000,000 (\$0.6 to \$12 million U.S. dollars). The consultancy is related to pumping station, sewage treatment plant, and replacement of equipment in sewage treatment works. Locus and CKM have worked together in the past.

"This is a very important win for CKM and Locus Technologies. It demonstrates the value of Locus's environmental and Internet-based technologies in the highly competitive Southeast Asia environmental markets. The win provides entry for Locus to the Singapore market," said Dr. Neno Duplancic, President and CEO of Locus. "We are pleased that we will be working with Locus Technologies on this important project. Through partnership with Locus, CKM gets access to advanced U.S.-based environmental technologies," said Dr. C.K. Murthy, Managing Director of CKM.
