FORMATION OF LOCUS TECHNOLOGIES

NEWARK, CA (July 16, 1997) - Locus Technologies, an environmental engineering/construction group, has been formed to provide services to public/industrial and private organizations seeking specialty engineering and construction services in environmental matters.

The company is headquartered in Newark, California. "The company's sole mission is to lower overall remedial cost for its clients by utilizing an experienced management team and latest technological developments", said Neno Duplancic, President, CEO and one of the founders of Locus Technologies.

About Locus Technologies

Locus Technologies, an ENR-200 company, specializes in providing comprehensive consulting, design, information management, automation, and construction services for environmental and energy markets. For more information about the company, visit their web site at <http://www.locustec.com>.
